Maximum Marks	2 Marks

Customer Journey Map

Persona: Dr. Michael Carter, Clinical Risk Assessment Officer, who wants to find high-risk patients early using the Health360 dashboard.

Phase of Journey	Stage 1: Discover and open	Stage 2: Explore and compare	Stage 3: Understand and act
Actions What does the customer do?	Receives the Health360 link Opens the web page Reads the headline KPIs	Applies Age Group, BMI Category and Exercise Level filters Compares blood pressure, lifestyle and disease charts Opens the heat map of BMI and exercise	Clicks through the story scenes Notes high-risk groups Shares findings with the clinical team
Touchpoint What part of the service do they interact with?	Flask web page (Home section) KPI cards	Embedded Tableau dashboard Filters and tooltips	Embedded Tableau story FAQ section
Customer Thought What is the customer thinking?	"How many patients are affected?" "Is this easy to understand?"	"Which BMI group has the highest heart disease rate?" "Does exercise change the risk?"	"Which groups should we screen first?" "Can I trust and explain these numbers?"
Customer Feeling What is the customer feeling?	Curious and a little sceptical	Engaged and in control	Confident and ready to act
Process Ownership Who is in the lead on this?	Project developer (publishes and shares links)	Project developer (dashboard design); user (exploration)	User (decisions); project developer (story and FAQ content)
Opportunities How can we improve this stage?	Add a short guide on how to use the filters Show the data source and date on the home page	Add tooltips that explain each chart Add gender and symptom filters	Add a downloadable summary Add a risk score model in a future version
