Project Design Phase-II
Data Flow Diagram & User Stories

Date	01 November 2026
Team ID	
Project Name	Health360: Comprehensive Healthcare Risk & Disease Analysis
Maximum Marks	4 Marks

Data Flow Diagrams:

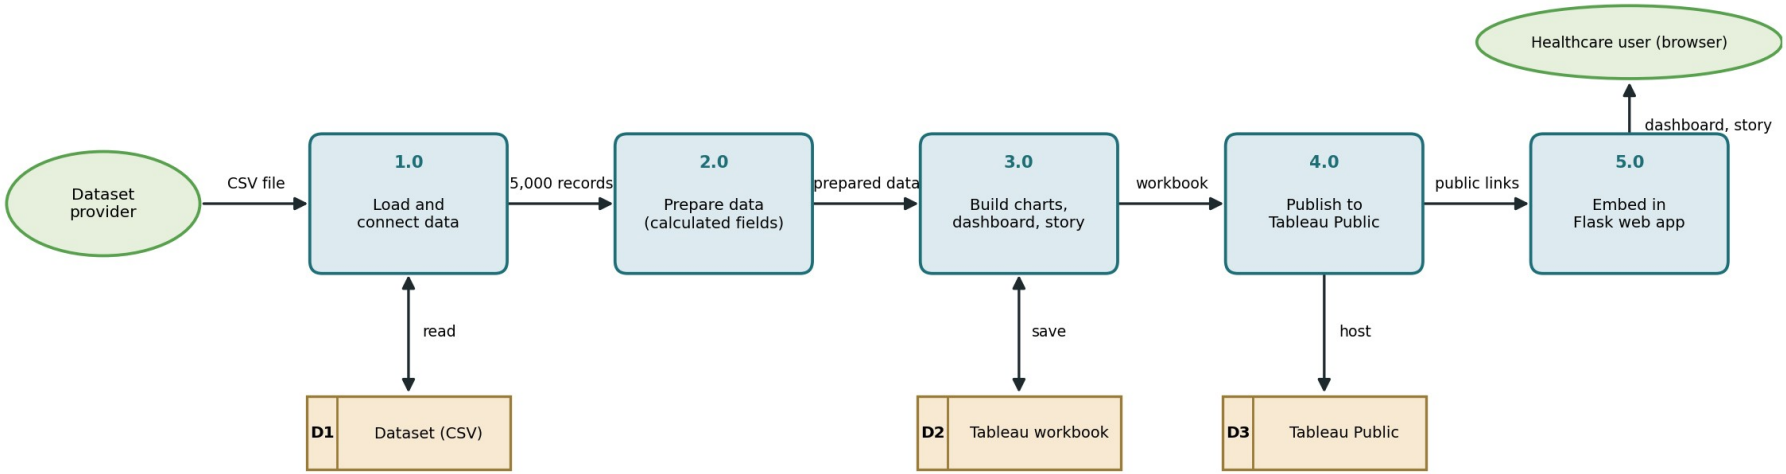

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

DFD Symbol Legend

Symbol	Name	Description
Oval / Rounded shape	**External Entity**	A person, organization, or system outside the project that sends or receives data (e.g., Customer, Payment Gateway).
Rectangle with numbered header	**Process**	An activity that transforms incoming data into outgoing data (e.g., Validate Request, Process Order).
Rectangle (solid fill, no number)	**Data Store**	A place where data is held for later use (e.g., Customer Database, Inventory).

Labeled arrow	**Data Flow**	The movement of data between entities, processes, and data stores, labeled with what data is being passed.

Level 1 Data Flow Diagram for Health360:

Level 1 DFD for Health360. Ellipse: external entity. Rounded box: process. Open box: data store.

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Clinical Risk Assessment Officer	Dashboard overview	USN-1	As a clinical risk officer, I can see total patients and disease counts as KPI cards so that I get a quick overview.	KPI cards show 5,000 patients, 1,746 diabetes, 1,499 heart disease and 1,243 stroke	High	Sprint-2
	Filters	USN-2	As a clinical risk officer, I can filter by BMI Category, Age Group and Exercise Level so that I can focus on high-risk groups.	All charts on the dashboard update when a filter changes	High	Sprint-2
	Risk by BMI	USN-3	As a clinical risk officer, I can see the heart disease rate by BMI category so that I know which weight group needs attention first.	Bar chart shows 20.5%, 26.0%, 32.9% and 40.0% from Underweight to Obese	High	Sprint-1
Healthcare Data Analyst	Lifestyle analysis	USN-4	As a data analyst, I can compare smoking and alcohol patients across age groups so that I can see lifestyle patterns.	Grouped bar chart shows both habits for each age group	Medium	Sprint-1
	Combined risk	USN-5	As a data analyst, I can see heart disease rate by BMI and exercise level in a heat map so that I can find the highest-risk combination.	Heat map shows rates from 18.8% to 42.9%	Medium	Sprint-1
	Symptoms	USN-6	As a data analyst, I can see patients by age group and fatigue so that I can compare symptom prevalence.	Stacked bar chart shows fatigue and no-fatigue counts per age group	Medium	Sprint-1
Public Health Researcher	Population view	USN-7	As a public health researcher, I can see the share of patients in each age group so that I understand the population mix.	Pie chart shows six age groups that add up to 100%	Medium	Sprint-1

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
	Exercise view	USN-8	As a public health researcher, I can see patients by exercise level so that I know how active the population is.	Donut chart shows Active, Moderate and Sedentary shares	Medium	Sprint-1
	Blood pressure	USN-9	As a public health researcher, I can see average blood pressure by age group so that I can check how it varies with age.	Bar chart shows average blood pressure for all six age groups	Medium	Sprint-1
Web user	Web access	USN-10	As a web user, I can open the dashboard in a web page so that I can explore it in my browser.	Flask page loads the embedded Tableau Public dashboard	High	Sprint-3
	Story	USN-11	As a web user, I can click through the story scenes so that I can follow the findings step by step.	Flask page loads the embedded story with all scenes	High	Sprint-3
	FAQ	USN-12	As a web user, I can read how age groups and BMI categories are defined so that I can interpret the charts.	FAQ section shows the definitions	Low	Sprint-3
