Ideation Phase
Brainstorm & Idea Prioritization Template

Date	01 November 2026
Team ID	
Project Name	Health360: Comprehensive Healthcare Risk & Disease Analysis
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Step 1: Brainstorm and Idea Listing

Each team member lists out as many ideas as possible without judging them at this stage.

S.No	Team Member	Idea / Suggestion	Category	Group No.
1		Show headline KPIs (total patients, diabetes, heart disease, stroke) at the top of the dashboard	Dashboard	G1
2		Add filters for Age Group, BMI Category and Exercise Level	Interactivity	G1
3		Group raw age values into six age groups using a calculated field	Data preparation	G2
4		Group BMI into four categories (Underweight, Normal, Overweight, Obese)	Data preparation	G2
5		Heat map of heart disease rate by BMI category and exercise level	Visualization	G3
6		Charts for blood pressure, smoking, alcohol, exercise and fatigue across age groups	Visualization	G3
7		Tell the findings as a data story with one scene per chart	Storytelling	G4

8		Embed the dashboard and story in a Flask web page	Web integration	G5
9		Add a predictive model that scores each patient's risk	Future scope	G6

Step 2: Idea Prioritization

Rate each grouped idea on feasibility and importance, then select the final idea(s) to move forward with.

Group No.	Final Idea	Feasibility (High/ Medium/Low)	Importance (High/ Medium/Low)	Priority	Selected (Yes/No)
G1	Interactive dashboard with KPIs and filters	High	High	High	Yes
G2	Calculated fields for age groups and BMI categories	High	High	High	Yes
G3	Disease and lifestyle visualizations, including the BMI and exercise heat map	High	High	High	Yes
G4	Data story with one scene per chart	High	Medium	Medium	Yes
G5	Flask web page that embeds the dashboard and story	Medium	Medium	Medium	Yes
G6	Predictive risk model	Low	Medium	Low	No (future scope)
